

SENATOR CLARK TO BUILD RAILROAD THROUGH ARIZONA

New Line Will Connect Salt Lake Road With Jerome And Thence To Globe

LOS ANGELES, April 13—An evening paper prints a story to the effect that Senator Clark and his associates are decided to build a line of railroad from a connecting point from the Salt Lake line into Arizona to the Jerome copper mines, and connect finally with the Southern Pacific at Globe.

The proposed line would cross the Grand Canyon at Lees Ferry, which is said to be the only point the line could go through. Thence it is to run to Flagstaff, connecting there with the main road originally started from

that point to Globe. From there the line would follow along Oak creek, the Verde, and thence continue to Globe, where it would connect again with Harriman's Gila Valley, Globe and Northern, which reaches the main line of the Southern Pacific at Bowie.

The reasons for the new road are to enable Clark to tap directly the Jerome mines and open up the vast and undeveloped regions of Arizona, and enable Harriman to have operating connections in the Santa Fe territory, and finally to give Salt Lake and interior towns a short direct route to New Orleans and other points south.

VOLCANO IN HOT WORDS PASSIVE STATE STRICKEN OUT

NAPLES, April 13—No better evidence of the improved condition of affairs in this section effected by the eruption of Vesuvius can be presented than the following telegram from Director Matteucci, sent this evening from the observatory on the side of the volcano:

"Last night and today the activity of Vesuvius and the agitation at the surface of the volcano has sensibly diminished. The electric charges ceased today, and the discharge is less abundant. From the presumed formation of the crater and other indications, and of news coming to me of the cessation of lava at Boscore, I predict that in two or three days volcanic calm will reign."

The publication of this assuring dispatch brought joy to the people, and tonight's Good Friday services at the churches were attended by large congregations, which took the form of fervent thanksgiving that the dangers are past.

The wind shifted today, and the ashes were carried away from Vesuvius. In other quarters there is no denying the awful evidences of the volcano's fury.

At Boscore the exhumation of the dead is carried on by soldiers, who owing to the advanced stage of decomposition of the corpses are unable to work more than an hour at a time. The work is one of great financial cost as well as dangerous and arduous to those engaged in it.

Many of the bodies are merely shapeless unrecognizable masses of flesh and bones while others are but little disfigured. As quickly as possible they are buried in quicklime to lessen as far as may be the danger of an epidemic. None but those engaged in the work of burying the bodies are permitted in the vicinity.

CHAMPION AT GOLF.

LOS ANGELES, April 13—Miss Catherine Harley won the Southern California women's golf championship at the country club here today from Mrs. Frank Griffith, 5 up and 3 to play.

F.E. BURLINGAME & Co ASSAY OFFICE AND CHEMICAL LABORATORY

GOLD BULLION FROM BLAKE-BAKER MINE

Eighty-Five Ounces from A Run Of 38 Tons

Ore Body Discovered In A New Cross-Cut Tunnel

(From Saturday's Daily.)

L. N. Wombacher, general manager of the Blake Baker property in the Cherry creek district, in company with Nye Thornton, arrived in this city late yesterday afternoon with a bar of gold bullion weighing 85.2 ounces, the product of a mill run of 38 tons of ore taken from the Baker mine and milled at the Monarch mill.

The property is situated on the eastern slope of the Black Hills overlooking the Verde valley, about a half mile distant from the camp of the Pfau Mining and Reduction company. Blake Baker has been in possession of the mine for some time, but the discovery of the ore body which furnished the mill run was only made recently in a crosscut tunnel run into the mountain to tap the vein. The pay streak ranges in thickness from ten to fifteen inches with the principal values being in gold. The greatest drawback to this and numerous other properties in the same district, is the lack of transportation facilities, the nearest railroad station at Dewey being about twenty miles distant.

TEACHER TURNS NOVELIST.

In the April number of the "Popular Educator" appears an article entitled "A Novel Lesson," from the pen of Miss Louise Switzer, a talented young lady, who taught school about two years ago at Peck's Lake, which place is made the scene setting for the story. Miss Switzer's last term in this county was at Cherry creek, and she is now teaching at Rhodes, Coconino county.

POLITICS BEGIN TO SIZZLE IN ALABAMA

MONTGOMERY Ala. April 13—Lieut. Gov. R. N. Cunningham has this week begun his campaign for the gubernatorial nomination in earnest, and from now on until the state primary in August, he promises to keep the political pot sizzling at a lively rate. Until the present time Mr. Cunningham has remained comparatively inactive in pushing his campaign, and reports were circulated that he intended to quit the race. His public speeches of the past week have clearly shown, however, that he has no such intention.

His rival for the nomination is B. B. Comer, president of the state railroad commission, and a prominent farmer and cotton mill owner. Mr. Comer is a leader of the radical race reform element, while Lieut. Gov. Cunningham represents the conservative forces. With these two fighting for the governorship and a large field in the race for the senatorial togs, whenever they are laid aside by Messrs. Morgan and Pettus, the prospects are that Alabama will witness from now on one of the fiercest political fights of late years.

STRIKES RICH ORE.

(From Saturday's Daily.)

E. E. Breed, who is developing several promising prospects in the Mount Union section, came in yesterday with his mining camp to purchase supplies. He recently struck a very rich vein of gold ore on one of his claims, specimens of which he exhibited here yesterday, which showed remarkable richness in the yellow metal. He has not developed the ground to any extent, but will commence at once to sink a shaft on the new find.

DESPERATE LOVER FIRES AT HIS CHARMER

Exciting Episode At A Mexican Dance At Bisbee

Jealous Hombre Shoots Into A Crowded Room

Enraged with jealousy because his sweet heart had shown favor to another, a lover stepped outside the house and fired four shots through the side of the building at Miss Refugio Moreno, the last shot taking effect in her right shoulder, the first one striking Manuel R. Ramirez in the leg. The shooting took place last night on Naco road near the sludgum, says the Bisbee Miner.

Manuel Gutierrez gave the dance, the occasion being the christening of his little son. Miss Moreno, it is said, has several lovers who are imploring her to marry. She has refused and last night did not devote her attentions to any one but divided them among her friends. The theory is that one of her lovers became jealous and stepping outside, attempted to kill her by shooting through the side of the house.

From the nature of the assault it is evident he had been in the house, fixed her location, stepped outside and tried to shoot her through the side of the house. The musician who was struck by one of the bullets was also one of her lovers.

Dr. Hart was called and dressed the wounds. It was found the ball, 32-calibre, had entered her right shoulder, passed nearly through and lodged. Today Dr. Hart extracted the ball, and it is believed she will recover. The musician who was shot was only slightly injured.

Officer Jack White was summoned immediately after the shooting. When he arrived there was no indication of an assailant, and no clue as to who had fired the shots. Officers are still working on the case. At the time of the shooting the house was filled with people.

WOOL GROWERS GATHER AT DENVER

DENVER, Colo., April 13—Prominent representatives of the stock raising and wool growing industries of the west are gathering in Denver for an important conference to discuss retaliatory measures against the commission houses for their alleged exorbitant charges. The organizations represented at the conference include the American National Live Stock association, National Wool Growers' association, and the state associations of wool growers of Arizona, Idaho and Wyoming. It is proposed by the growers to establish independent commission houses unless the commission men recede from their present position.

FELL BENEATH TRAIN.

(From Friday's Daily)

Running along rapidly on top of the box cars on a train at Aztec, Arizona, Merle M. Hamilton made a misstep and fell headlong between the cars. The entire train passed over him, causing instant death.

Hamilton was not quite 20 years old, and was a son of Contractor Hamilton. He was an extra brakeman on the Southern Pacific, and was a member of the freight crew in charge of a train westbound from Tucson.

As soon as news of the accident was received at Tucson, the father, accompanied by Undertaker Parker, went to Yuma. They returned with the remains of the young man on Sunday morning.

The brakeman was very well known, and was quite popular. He worked for some time with Agent Lowrie at Tucson as car scaler. He had been in the employ of the Southern Pacific for more than a year.

DESERT KING IS THROWN IN JAIL AT LOS ANGELES

Bail Of Scotty And Pearl Raised To \$10,000 Which They Fail To Produce

LOS ANGELES, April 13—Upon orders from the superior court of San Bernardino county which issued bench warrants to bring about an increased amount of bail, Walter Scott (Scotty) and one of his partners, A. Y. Pearl, were arrested by the local authorities late this afternoon and lodged in the county jail. A similar warrant was issued for the arrest of William Scott, a brother of Walter but up to this evening he was not found.

Since giving bail in San Bernardino on a charge of assault with a deadly weapon in connection with the Wingate pass ambush, when Warner Scott, another brother, was shot in the groin, they have been in Los Angeles.

It is alleged that they have been making lavish expenditures on automobiles, wine, etc., and as the San Bernardino court released them on \$2000 bail on pleas of poverty, the court now takes judicial notice of their action, and orders an increase in the bail to

\$10,000 each. They will be taken to San Bernardino tomorrow and be compelled to remain in jail until May 1, the date for their preliminary hearing, unless a bond is supplied.

Scott's theatrical company, playing at the Grand theatre here, went through the performance tonight while the star occupied a cell.

William Scott was arrested this evening, and he and Walter Scott were turned over to the San Bernardino authorities who started with them for that city. Habeas corpus saved Pearl from being taken with them, and he is now in jail here.

Charles A. Taylor, Scott's theatrical manager, gave out the statement tonight that he is done with Scotty. The latter proved intractable, he said, and it was too much trouble to keep him out of jail. Scott will never again be a member of his company, he asserted, and he (Taylor) will continue with the company, playing Scott's role himself. He took Scott's part at the Grand tonight.

HOPPE LIKELY TO PROVE A WINNER TRUCE CALLED IN DOWIE'S FIGHT

NEW YORK, April 13—Willie Hoppe the young American expert who holds the world's championship at 18 inch billiards, defeated Ora Morningstar this afternoon in a game for the international 18.2 tournament today. The score was 500 to 207, in 26 innings. Hoppe's average was 196-25 with a high run of 105.

Louis Cure, the Parisian billiardist, played his third game for the world's championship at 18.2 tonight, and defeated George Sutton by 500 to 427. It was the Frenchman's first victory, he having been beaten earlier in the week by Morningstar and Slossen.

Hoppe's victory this afternoon over Morningstar makes him the likely winner of the championship.

Walker Victor.

W. S. Comer, the Walker mining man, came in Thursday from his camp in the Lynx creek section.

CHICAGO, April 13—Peace hovers over the warring factions that are endeavoring to secure control of Zion City.

This statement was authorized tonight by the legal advisers both of Dowie and general overseer Voliva. After an all-day conference attorney Wetten, representing Dowie, said:

"We are nearer a peaceful solution of this question tonight than at any stage of the proceedings. We have changed our minds relative to filing a bill in equity declaring the transferring of the ownership of the property of Zion by Voliva to deacon Granger to be void, and will await further developments. Today as a matter of formality we filed in court a paper declaring the action of Voliva void."
